Objective Summery

I am an aspiring 3D artist who has had experience with almost every type of design. From graphic, web, print, 3D, no task is too large and no project is too complicated for my total resolve. I take every project seriously and constantly challenge myself to work outside of the box and reach toward new horizons.

I am a valuable member of any team, bringing a spark to the design pool and collaborating with others to create the best possible solution. Passion drives me, detail focuses me, and discipline holds me fast to each project. Good design can change lives, I am ready to change the world.

Computer Skills

- ◇ Strong skills in Maya including polygonal modeling and texturing
- ◇ Proficient in: CSS, Dreamweaver, Encore, Flash, HTML, Illustrator, InDesign, Javascript/JQuery, Maya, Microsoft Word, Photoshop, PHP, Premiere Pro, Windows, and WordPerfect
